## Cybersecurity Architect (m/f/d)

Information Technology

Innsbruck, Austria

Professionals Full-Time 38.5h Permanent

### Your Tasks

- Design and document security architectures for networks, systems, cloud, and applications
- Ensure architectural alignment with corporate strategy, IT roadmap, and compliance standards (e.g., ISO 27001, NIST, CIS)
- Define secure design patterns, reference architectures, and security baselines
- Embed security by design into Information Technology projects
- Managing end-to-end enterprise security implementations and architecture design

### Your Profile

- Bachelor's degree or higher (University, FH) in Computer Science, IT or a related field
- Minimum of 7 years of experience in IT or cybersecurity, including architecture or engineering roles
- In-depth knowledge of security frameworks (e.g., ISO 27001, NIST, CIS) and enterprise infrastructure
- Relevant certifications such as CISSP, CISM, or Microsoft Cybersecurity Architect Expert are highly desirable
- Strong analytical and communication skills, excellent stakeholder management and fluency in English (spoken and written); German is a plus
